

# SALICO

*Blue ocean, green automation.*

03.27.2025

Salico is an **autonomous harvester**.

## WHY SEA ASPARAGUS?

Sea asparagus is  
**NUTRITIOUS,**  
**SALT TOLERANT,**  
& environmentally  
**SUSTAINABLE.**

1. The **SEA ASPARAGUS** industry has massive **POTENTIAL**.
2. **MANUAL LABOUR** holds back growth of the industry.
3. Good quality harvest is **CRUCIAL** for useful products.

Meet Dr. Wenhao Sun, the CEO of

**OLAKAI HAWAII**, a **LEADER** in sea asparagus farming.

# CURRENT SOLUTIONS

Bördegarten Gemüse  
Vertriebsgesellschaft mbH

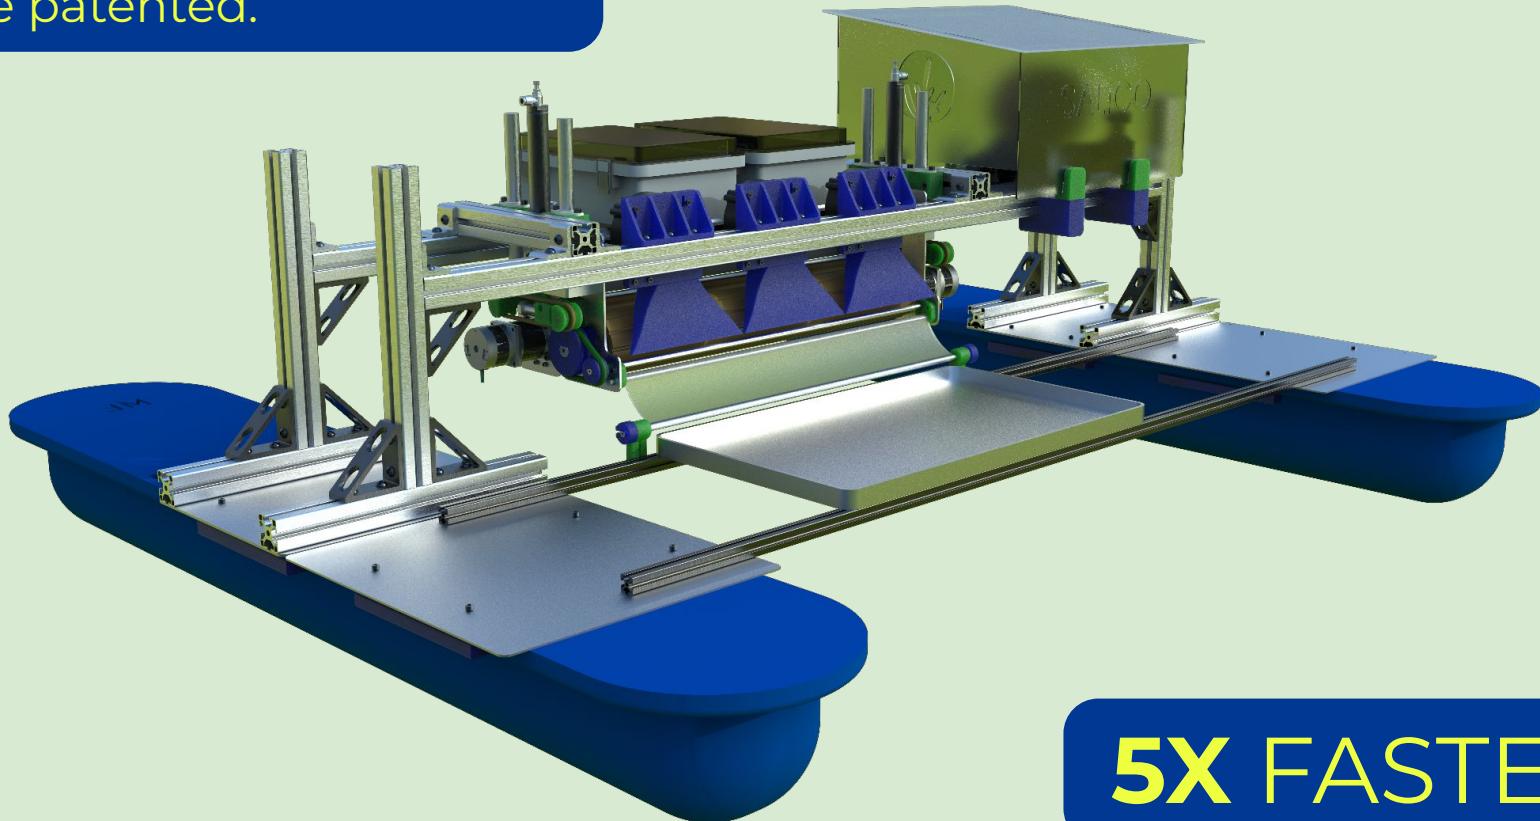

## ASIA

Halophilic Marine Agriculture  
Phyto Corporation  
Arabian Saline Water  
Technology Company  
Xian Rainbow Bio-Tech Co., Ltd.  
Green Garden Salicornia  
Development

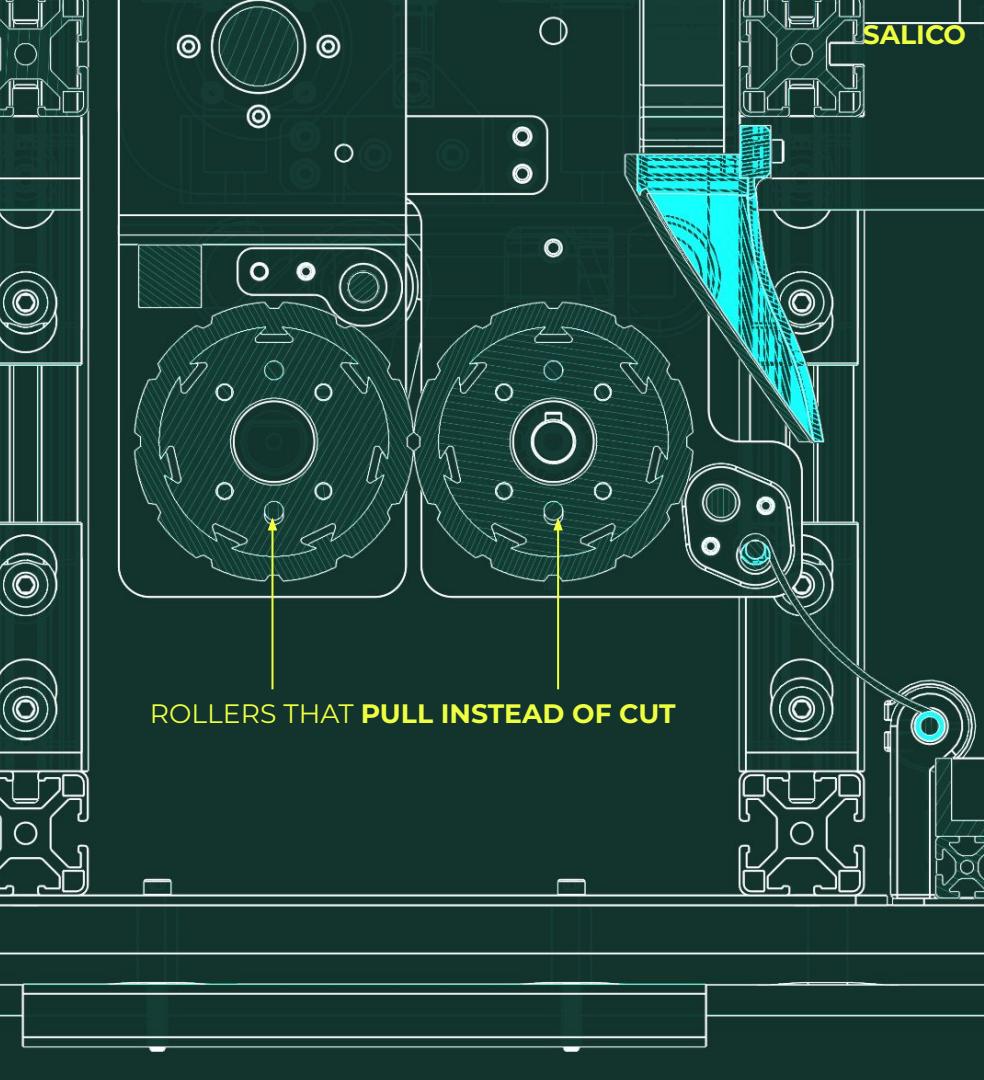

A photograph of a farm at sunset. In the foreground, three people wearing hats and overalls are standing in a small blue boat on a narrow waterway. They appear to be harvesting produce from floating rafts. The waterway is surrounded by lush green fields. The sun is low in the sky, casting a warm glow over the scene.

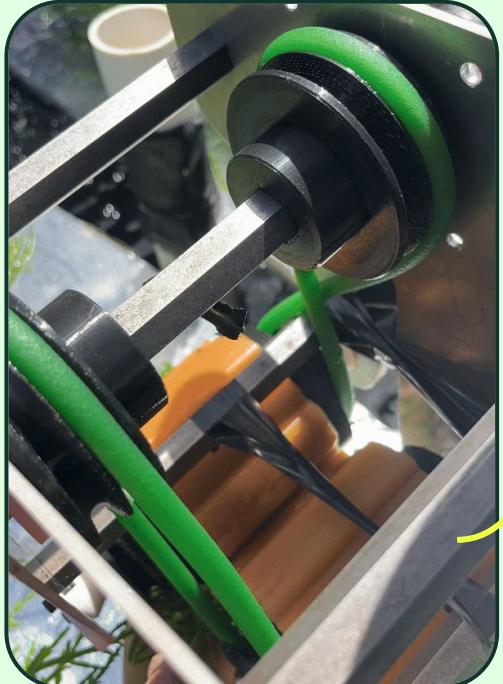

We uniquely preserve harvest **quality**.

We have a **working prototype**.  
It will be patented.

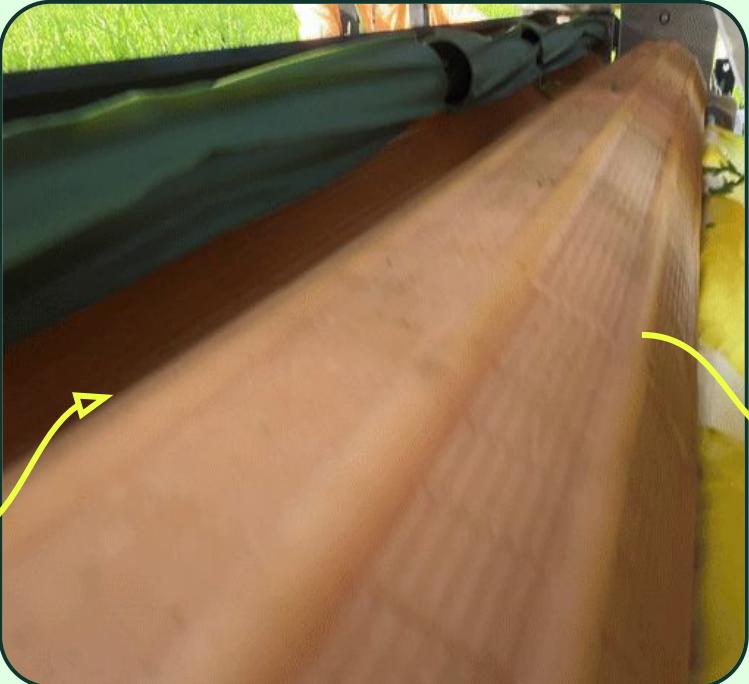

**5X FASTER**

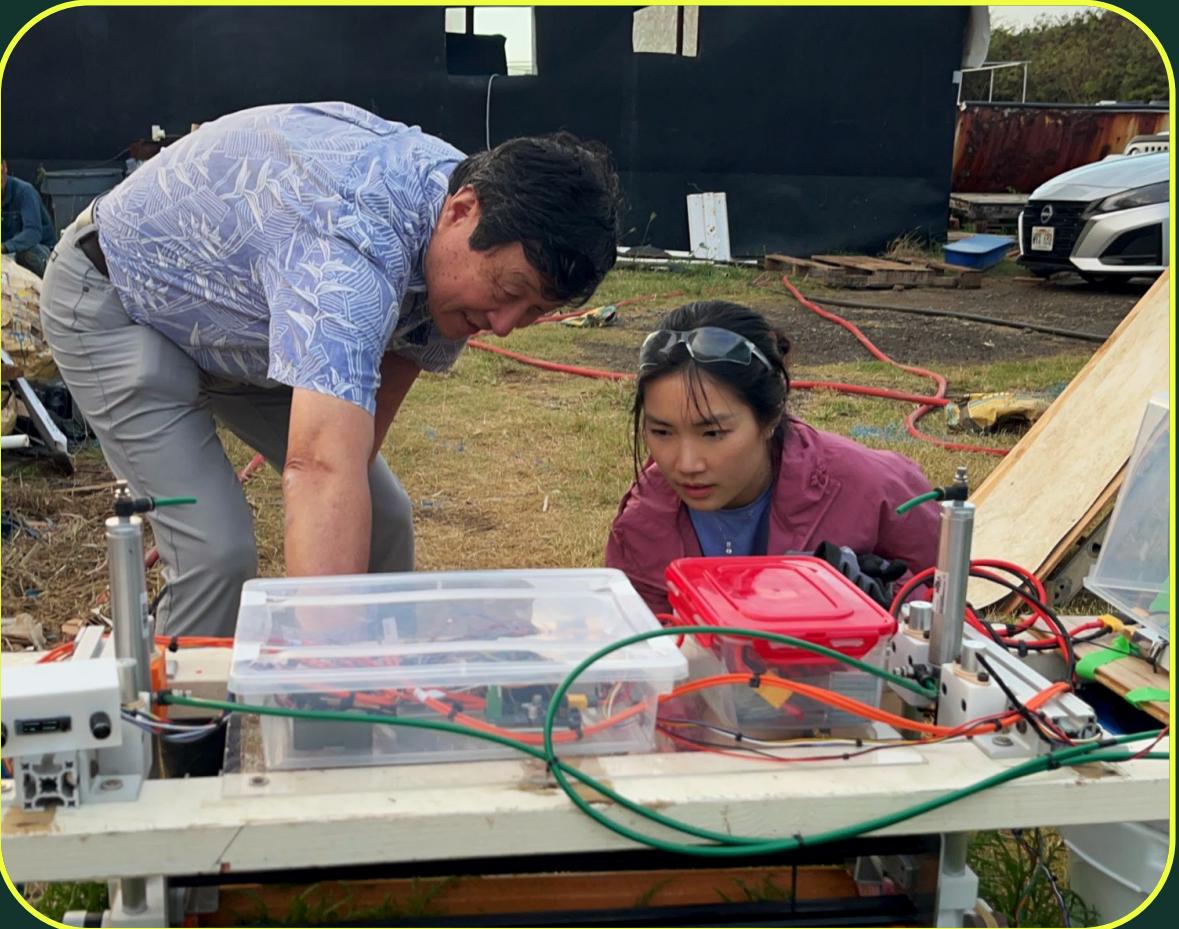

PROTOTYPE 1

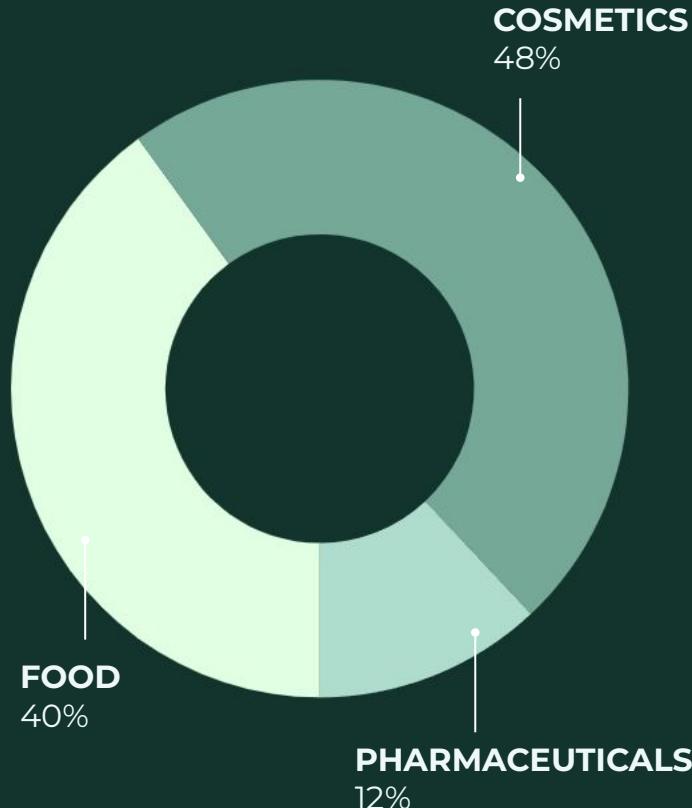

PROTOTYPE 2

HARVEST RESULTS

## WHY SEA ASPARAGUS?

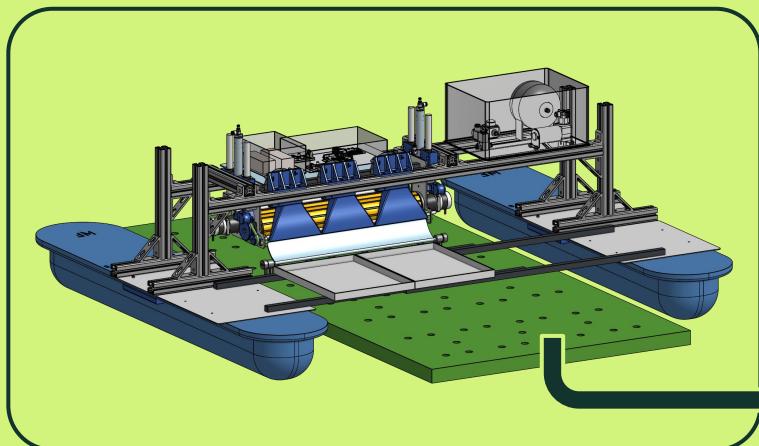

The market is worth over

**\$250 MILLION**

**CAGR 7.5% (2024 to 2030)**

# Business Model

## *HYBRID OWNERSHIP-SUBSCRIPTION*

\$\$\$

## AVAILABLE TECHNOLOGY & HOW WE ARE PROTECTING IT

SALICO

# Pricing Strategy

## HYBRID OWNERSHIP-SUBSCRIPTION

- **COMPETITIVE** pricing to similar harvesters
- **ADAPTABLE** land and water models
- Annual **SUPPORT** packages available

**\$10K/UNIT**

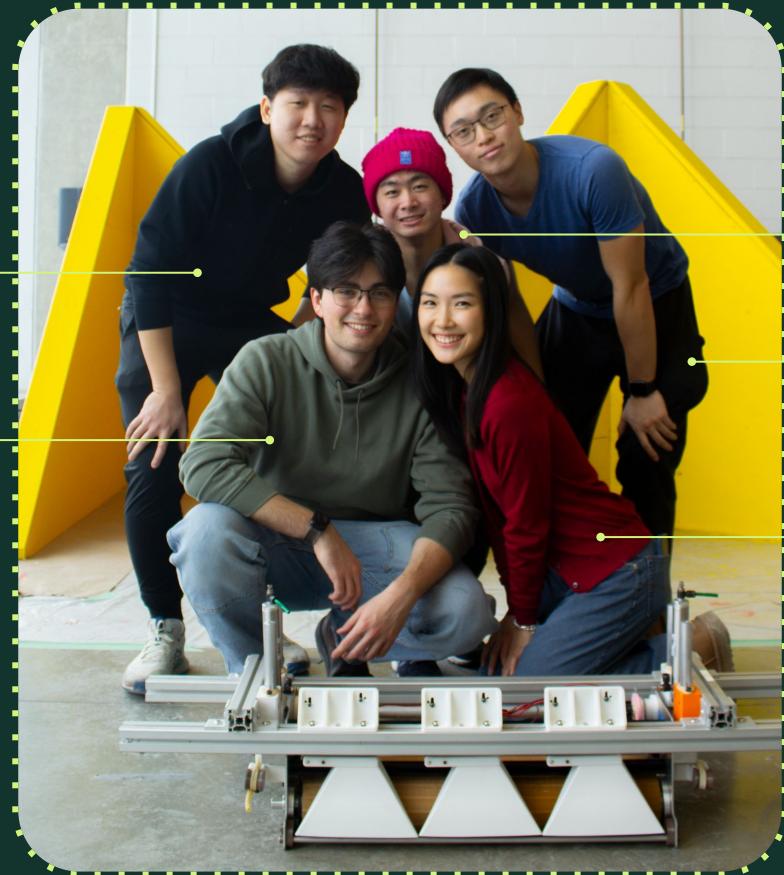

Annual Subscription  
**\$500/UNIT/YEAR**

VegTerra TR120: \$13000
